ACCESORIOS ACCESSORIES

TUERCA HEXAGONAL M-6
Se debe utilizar doble tuerca en todos los casos

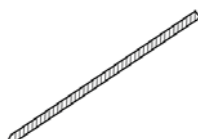

TACO NYLON Ø5
Se utiliza para el tornillo 4,5x25 sujeción remate perimetral

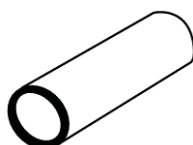

TACO NYLON Ø8
Se utiliza para la varilla en techo

TORNILLO 4,2x25
Tornillo aconsejable para sujeción remate perimetral

VARILLA ZINCADA M-6
Se utilizará para suspender el techo lo necesario obteniendo una óptima rigidez

MANGUITO EMPALME VARILLA M-6
Se utiliza para empalme de varillas para suspensiones de más de un metro
